invites you to participate in an

ASIST

APPLIED SUICIDE INTERVENTION SKILLS TRAINING

ASIST is a two-day interactive workshop in suicide first-aid. ASIST teaches participants to recognize when someone may be at risk for suicide and work with them to create a plan that will support their immediate safety. Although ASIST is widely used by healthcare providers, participants don't need any formal training to attend the workshop—ASIST can be learned and used by anyone. As the world's leading suicide intervention workshop, *LivingWorks'* ASIST helps participants become more willing, ready, and able to intervene with someone at risk for suicide. Participants will learn about: Their own attitudes concerning suicide, How to recognize and assess the risk of suicide, How to use an effective Pathway for Assisting Life model, and About available community resources.
